

A WIDGET TO COMPARE HOTELS

OKTATABYEBYE.COM, India's first on-line travel community, has launched an innovative comparison widget which helps users compare hotel rates across multiple travel websites and then book directly on the site. The widget also pro-

vides contact numbers of agents/hotels and allows users to request rates via e-mail. Driven by member feedback, this widget is a smart link between honest user-contributed hotel reviews and best tariffs available in the market.
